

Money

Identify a ₹50 note from the following.

Instructions / Feedback for the Teacher: Explain to the students the currency used in India in the form of notes and coins.

Money

Arun wants to buy a book for ₹10. Choose the correct number of coins that will he give to the shopkeeper?

Instructions / Feedback for the Teacher: Talk to the students about coins and notes. Help them to understand the concept of money by buying and selling things available in the class.

Money

7 rupees and 50 paise is written as ____.

₹ 7.00

₹ 7.50

Instructions / Feedback for the Teacher: Explain the children that money comes in the form of notes and coins.

Money

Add 50 paise and a ₹ 2 coin and choose the correct answer.

+

₹ 2.50

₹ 250

Instructions / Feedback for the Teacher: Give children guided practice with adding coins through activities and worksheets. Start with simple problems and gradually increase the difficulty as they become more proficient.

Money

I have ₹ 1 note with me . Mother gives me another ₹ 1 note. Now I have ____.

+

Instructions / Feedback for the Teacher: Set up a pretend store or market where children can use play money to "buy" and "sell" items. This helps them understand the concept of using money to make purchases.

Money

Take a look at the money in the picture and figure out how much is its worth?

₹5 coin

₹10 coin

₹5 note

Instructions / Feedback for the Teacher: Start by explaining that money is used to buy things we need or want. Tell them that money comes in two forms: notes (paper money) and coins.

Money

Pinky spent ₹18 to buy this doll. Choose the correct amount of coins that gave to the shopkeeper to buy it.

₹18/-

Instructions / Feedback for the Teacher: Help the children know the concept of rupees and paise in a combined form.
